The *Missouri Alliance for* Home Care in partnership with Ohio Council for Home Care & Hospice presents...

Hospice Coding Series

A 3-Part Webinar Series • Thursdays, August 8, 15, & 22, 2019 • 10:30 am —12:00 noon CST
****Attendees must have an ICD-10 coding manual (2019) to fully participate in practice scenario activities.****

CMS requirements for coding, not only the terminal illness, but also the related and unrelated diagnoses continue to create considerable challenges for hospices. Hospices have learned that the official coding guidelines do apply to hospice. Learning to apply the guidelines to hospice cases, including staying away from unacceptable primary diagnoses, getting medical director involvement, and determining who is ultimately responsible for coding have been some of the challenges. In this 3-part series coding expert Lisa Selman-Holman will discuss these regulatory mandates, providing strategies and solutions for compliance, and provide insight into coding guidelines.

This program is an introduction into the ICD-10-CM code set and begins with sequencing guidelines. We'll then have plenty of practice accessing the index in finding the codes, noting tabular list instructions, and then on to coding hospice scenarios with attention to improvement in documentation needed to choose the most specific codes to describe the terminal illness and related diagnoses. Conventions, such as 'with' may mean more diagnoses are "related." Attendees will leave with the ability to improve plan of care documentation and query physicians for more descriptive information. This series will provide coding of cases in each chapter of ICD-10-CM; the presenter will assign scenarios for participants to complete between sessions, going over the answers in class. Coders will leave with confidence and enthusiasm for ICD-10 implementation.

Presenter: **Lisa Selman-Holman, JD, BSN, RN, HCS-D, COS-C, HCS-O, HCS-H** is a home care veteran with over 30 years spent in home health and hospice, both as an RN and as an attorney practicing exclusively in home care. She is the President of Selman-Holman, a full-service home care consulting firm; CodeProU, an online education program; and CoDR-Coding Done Right, a coding outsource and audit company, as well as the Chair of the Board of Medical Specialty Coding and Compliance (BMSCC). Lisa is an AHIMA approved ICD-10-CM/PCS Trainer.
The presenter has declared no conflict of interest for this program and will present fairly and without bias.

Registration Form

Registration fees are for 1 connection. For additional connections, copy this registration form & send in with proper payment amount.

If paying by credit card please mail or fax your registration form for security reasons
