Intermediate ICD-10 Home Health & Hospice Coding
September 10, 2015 ♦ 8:00 a.m. to 4:00 p.m.
Intermediate ICD-10 Home Health & Hospice Coding
September 10, 2015 ♦ 4:30 p.m. to 6:30 p.m.
HCS-D/ICD-10 Exam Study Session
September 11, 2015 ♦ 8:30 a.m. to 11:00 a.m.
Coding Certification Exam

HCS-D/ICD-10 Coding Certification Exam Offered
September 11, 2015 ♦ 8:30 a.m.
Separate registration and fee are required for the exam.
See information enclosed
Join MAHC for Intermediate ICD-10 Training and Exam Prep!

This two day program offers a comprehensive introduction to coding home care & hospice conditions in ICD-10-CM. It includes a review of the basics of ICD-10, with application of the guidelines to more complex scenarios that would typically be encountered in home care patients and different scenarios for those hospice patients. This is a “hands-on” class with practice time allowed to code many of the scenarios, plan to bring an ICD-10-CM Coding Manual to the class.

September 9, 2015 and September 10, 2015
Intermediate ICD-10-CM Training for Home Health & Hospice Coding:

This training is focused on intermediate level coding examples, and will be an excellent preparation for the HCS-D/ICD-10 coding certification exam. It is also appropriate for new coders to learn ICD-10 but it is NOT recommended for new coders to take the exam if this is the first coding class they are attending! Those who have had an introductory class and take this class are set up to take the exam if they choose. A general working knowledge of home health & hospice coding will be very helpful, as the pace of the class is fairly brisk!

Program Content:
- ICD-10-CM Coding Conventions, general guidelines, terms and definitions
- Chapter specific guidelines and application of the conventions and general guidelines to more detailed scenarios
- Practice scenarios with examples typical to home care patients & hospice patients, discussion of coding scenarios with rationale for code selection and potential coding errors
- Identification of the additional information that will be necessary from intake and referral, and from clinical assessment documentation in order to select accurate diagnoses in the ICD-10 code set

Evening of September 10, 2015
Bonus: Exam preparation for HCS-D Certification:

After the intermediate Coding training concludes, candidates for the HCS-D certification are invited to attend a study session to prepare for the exam. The study session will provide a review of the areas of coding knowledge that will be covered on the exam, sample questions, and testing tips. Improve your chances to pass the exam by taking advantage of this opportunity for questions and discussion to help focus your preparation for the exam the following day.

Each attendee will need a current ICD-10-CM Coding Manual for use during the training.

About our instructor: Teresa brings 30+ years of experience to consulting and training for home health agency clinical staff on OASIS assessment and coding, focusing on customized clinical education programs and the practical application of guidelines by field staff. In addition, she has provided educational programs on documentation, agency communications and processes, quality outcome improvement, and care transitions for regional and state conferences. Certified in OASIS competency (COS-C), Homecare Coding Specialist-Diagnosis (HCS-D), and as an AHIMA Approved ICD-10-CM Trainer, Teresa has a comprehensive and contemporary knowledge of home care and quality improvement methods. Teresa has had experience as Clinical Services and QI/EDucation manager with home health agencies (independent, hospital-based, and county health dept.), as a hospital resource nurse, patient educator, and quality improvement facilitator, and as a program manager with Primaris, the Quality Improvement Organization for Missouri. She provides consulting services independently and through Selman-Holman and Associates of Denton TX. She received her BSN from St. Louis University.

This conference has been pre-approved for 12 CEUs towards the maintenance of the HCS-D credential.

You may purchase an ICD-10-CM manual through Decision Health at a discount if your agency is a member of MAHC. See details on the MAHC website: www.homecaremissouri.org
