

Eagle Eye Aides—Recognizing Key Patient Abnormalities

A Webinar • Thursday, June 8, 2017 • 2:00—3:00 p.m. CST

Presented by **Sherry Thomas, BSN, MPH**

You are the first line of patient defense! You are the boots on the ground as far as helping to identify that something is “wrong” with your patient. You are the Eagle Eye Aide! Join this webinar to learn how to recognize the subtle and not-so-subtle changes in your patient that are the first clues that something is amiss patient-wise and what then to report to your supervisor.

About our speaker: **Sherry Thomas, BSN, MPH** has worked in home care for 33 years - as a visiting nurse, supervisor, manager and Director. She was instrumental in starting both a large in-home aide waiver program in NC and a large, hospital-based home health agency. Over the years she has taught numerous education classes for home care staff. She is currently the Senior Executive Vice President for the Association for Home & Hospice Care of NC where she advises agencies in NC and SC on policies and regulations and oversees provider education.

Use this session to meet your training requirements. All in-services emphasize the role of home care aides in observation and reporting. It is the responsibility of the home care company to determine if this workshop meets the specific requirements of its aides. The Missouri Department of Health & Senior Services affirms that this session meets the requirements found at 484.36[b] of the Medicare Conditions of Participation and for in-home service companies, this session meets the required standard for on-going training of aides.
