9:00—10:30 a.m. CST

Documentation Necessities

Thursday, September 22, 2016
9:00—10:30 a.m. CST

PPS Update: The Final Rule 2017

Thursday, November 10, 2016
9:00—10:30 a.m. CST

About this series:

This series will cover the three major areas of concern in surviving the Home Health PPS in 2017: OASIS C2 implementation, Documentation requirements and Regulatory updates. The OASIS C2 implementation session will cover all the changes to OASIS requirements effective January 2017. Among the major changes are pressure ulcer changes, new GG items and look back period requirements. The Documentation Necessities session will address Medicare documentation requirements that will assist in getting you through any and all contractor reviews. Lastly, the Regulatory Update session will address the 2017 Home Health Final Rule and all the reimbursement and quality related changes that come with that final rule. This series is a must for all home health agencies.

About our Speaker: Melinda Gaboury, COS-C, is co-founder and CEO of Healthcare Provider Solutions, Inc. which provides financial, reimbursement, billing and clinical consulting to the home care and hospice industries. She began her career in 1991 with a large Tennessee based homecare chain as a staff accountant and later joined a national healthcare consulting firm as their Reimbursement Manager. Her priority remains bridging the gap between clinical and financial issues in home health and hospice agencies. The one unique thing that she brings to the industry is the development of very effective Billing Education while being able to also teach the reimbursement aspect and how they are directly related.

OASIS Update

Tuesday, September 6, 2016 • 9:00—10:30 a.m. CST

The OASIS update teleconference for the transition to OASIS C2 is extremely important for understanding some of the intricate details to being successful under OASIS C2. The changes to documentation of pressure ulcers and look back periods are changes to what has been long standing regulations that will take time for your staff to fully absorb. In addition to these changes there will be a discussion of the importance of ADL documentation and the support needed for therapy treatment. This is a must have teleconference for all completing or educating on OASIS C2.

Documentation Necessities

Thursday, September 22, 2016 • 9:00—10:30 a.m. CST

Documentation Necessities is a teleconference loaded with clarifications, from the Medicare MAC's, regarding documentation requirements to pass medical review of your charts. Some of these key items include, medical necessity, home bound status, therapy supportive documentation, face to face, and certification/recertification requirements. Most medical review denials are a result of inadequate medical necessity documentation. This teleconference will assist in putting your documentation denials behind you.

PPS Update: The Final Rule 2017

Thursday, November 10, 2016 • 9:00—10:30 a.m. CST

The final rules to be issued by the Centers for Medicare and Medicaid Services (CMS) in late October, will include a number of significant policy changes, in addition to the 2017 payment rates for home health. This teleconference will analyze the changes for 2017 including payment rates that continue to decline and CMS maintaining its across-the-board recalibration of case mix weights. Case mix creep continues to plague the industry, but nothing above what was promised last year. The Value-based purchasing program has also been updated. Changes to the Outlier calculation and Pressure ulcer devices will round out the topics of discussion. PPS expert Melinda Gaboury will provide us with an in-depth review of the integral elements in the final rule.
