Home Health 2018 Final Rule & Contractor Update

This webinar will review the details of the 2018 Final Home Health Rule which includes 2018 rates and an update to Value-Based Purchasing and HH Quality Reporting Program. This webinar will also review the goal of the ADR/RA & ZPIC audit process. Agencies will learn how to respond to these record requests as well as the subsequent audit findings. The timelines for responses and the recoupment process will be defined. This session will describe likely audit risks for home health agencies and how to monitor those risks. Lastly, this session will assist in providing a checklist for the documentation required to be sent in, but also a checklist of things to review in the chart before sending it in.

The billers and collectors are extremely important to agencies thriving in the current system so do not miss this needed education!
