*Missouri Alliance for Home Care presents...*

# 2015 Home Health Rehab Update: Strategies for Success Today & Tomorrow

A 3-part teleconference series for all Home Care Therapists

*Featuring...*

**Arnie Cisneros**

*President, Home Health Strategic Management*

## **Required Therapy Elements and the Connection to Coverage**

November 3, 2015

## **Therapy Update on Medication Management & Denial-Proof Documentation**

November 10, 2015

## **Rehab Solutions to Care Reforms—Value-Based Purchasing, Bundling, & Alternative Payments**

November 17, 2015

### **About this conference:**

Healthcare Reform has arrived, and Home Health changes will require attention to care and documentation requirements as our programming models adapt to meet ACA demands. Most affected will be Home Health rehab services as the adaption of the acute episode into the Episodic Bundling model focuses on reducing the care continuum volumes we know today. Decreasing Sub-Acute rehab lengths of stay for transfer to Home Health care requires attention to skilled care content, and that attention to documentation will also dictate homecare volumes.

This 3-part, progressive teleconference series on Rehab in Home Health will review current PPS requirements such as documentation and Medication Management, as well as required rehab content and the connection to covered care. In addition, these topics will be addressed with an eye on the ACA requirements of the future, including Value-Based Purchasing, Bundling, and Comprehensive Care for Joint Replacement (CCJR) requirements.

Home Health Providers seeking success in the new care era should prepare today for the demands of tomorrow. Identify areas where your rehab team may fall short regarding PPS performance. Learn how agencies are addressing Medication Management issues for PT-only Start-of-Care visits. Identify the effects required rehab content has on utilization, skill and outcomes. By beginning to address these items today, you can have immediate success that will transfer to the ACA requirements of tomorrow.

**About our Speaker: Arnie Cisneros, P.T.,** President of Home Health Strategic Management, is the most progressive speaker in Home Health today. His legacy as a rehab provider across the care continuum allows for insight into contemporary healthcare delivery, and he is renowned for his adaption of traditional care philosophies to address current and future healthcare initiatives. His refinement of clinical delivery mechanisms, integration of new protocols at the staff level, and adaptation of traditional care philosophies has helped providers of all sizes require care to achieve Medicare compliance. Arnie has also become the leading clinical authority on the audit scrutiny that has come to the homecare industry, and he is serving as a Post-Acute consultant for CMS Pioneer ACO grant recipients. He authors the HHSM newsletter and is a contributor to CARING magazine, and Decision Health publications. He presents nationally on homecare topics and care models proposed by CMS and Med Pac for the future of the Home Health industry.

### Required Therapy Elements and the Connection to Coverage

Tuesday, November 3, 2015 • 9:00 a.m. to 10:30 a.m. CST

The 2012 PPS Final Rule outlines required Rehab Content for Home Health delivery. Most homecare programming fails to include these required elements; skill and efficient care suffer as a result. These objective elements allow providers to develop skilled programs that elevate clinical outcomes, the levels of which will be required for healthcare reform models. By connecting these required elements to the core of rehab programming development and delivery, skilled coverage is achievable.

### Therapy Update of Medication Management & Denial-Proof Documentation

Tuesday, November 10, 2015 • 9:00 a.m. to 10:30 a.m. CST

Medication Management challenges most home health agencies when rehab professionals perform the OASIS SOC visit. Many therapist feel un-prepared to perform the medication element of the Start of Care visit, despite APTA comments that the educational curriculum for PTs prepare therapists adequately to perform the Medication section of the OASIS. Regarding denial-proof documentation, rehab clinicians can eliminate these types of concerns by assuring to include the 5 PPS-required elements for homecare rehab programming in all their documentation.

### Rehab Solutions to Care Reform – Value-Based Purchasing, Bundling, & Alternative Payments

Tuesday, November 17, 2015 • 9:00 a.m. to 10:30 a.m. CST

The Affordable Care Act includes new care delivery redesign models, many of which will directly affect how rehab patients are managed after discharge from acute hospitals. Both Sub-Acute Rehab Providers (primarily SNFs) and Home Health will be rewired for ongoing care reports, and reduction or elimination of non-compliance, missed visits, etc. Patient volumes will go to the Providers who can re-package and manage rehab care to achieve ACA goals, and this teleconference will demo those goals as they are refined under current pilot programs.

## REGISTRATION FORM

Company \_\_\_\_\_

Name \_\_\_\_\_

Email \_\_\_\_\_

Address \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_

Phone \_\_\_\_\_ Fax \_\_\_\_\_

HH Rehab Update 11/2015

### Registration Fees

**MAHC Members—\$450 Full Series or \$159/conference**

**Non-Members—\$318 per conference**

### Please check for each conference you are registering:

\_\_\_\_ Nov 3... Required Therapy Elements...

\_\_\_\_ Nov 10... Therapy Update of Medication Management...

\_\_\_\_ Nov 17... Rehab Solutions to Care Reform...
