Thank you for Your Sponsorship

## About this Conference:

This conference will carefully review the OASIS D data set, focusing on the new items. These new D items, due to the IMPACT Act standardizing data for all post acute care providers is very detailed, long and specific, particularly the difficult GG functional ability and goals. Utilizing CMS training and Medicare OASIS manual, Sharon will clarify and explain the OASIS D data set. We will also focus on outcomes related to Star and Value Based Purchasing, and how the multidisciplinary team works together to have accurate and increasing patient and agency outcomes.

The agenda for the day will include New OASIS D items, detail from CMS guidance manual and CMS documents, how to assess these very specific items, review case scenarios which include team collaboration, fall related items, review all OASIS items that go towards 5 star ratings & Value Based Purchasing and how to improve your outcomes & information to ensure that your coordination of care is effective and is able to improve outcomes for your patients and your agency.

## About the Instructor:

**Sharon Litwin** is the founder and senior managing partner of 5 Star Consultants, a national consulting and coding firm specializing in homecare and hospice services since 2003. Sharon is a former ACHC and CHAP surveyor, performing Medicare deemed surveys for ten years. Sharon has been in the homecare and hospice industry for over 30 years.

In her consulting firm, Sharon and her team of RNs assist home health and hospice agencies in providing quality, meeting regulations, ICD-10 coding, OASIS, increasing outcomes and Star Ratings, and having continued survey readiness. Sharon and her staff perform ICD-10 coding and OASIS reviews, QAPI, clinical record review, mock surveys and help agencies across the country stay in compliance. Sharon is a regular speaker to education companies, state and national associations and publications.
