

3-Part ICD-10 Coding Webinar Series

Webinars & Audio Recordings • Thursdays—March 12th, 19th & 26th, 2020 • 12:00 —1:00 pm CST

Recordings available for up to 2 weeks after each live session.

Speaker: Joan Usher, BS, RHIA, HCDS-D, ACE, AHIMA Approved ICD-10-CM Trainer

Now that we have been working with PDGM for more than 2 months, now is the time to ensure your coding is accurate and supports the documentation in the medical record. Join us for this 3 part series that will improve your coding skills and support the reimbursement under PDGM.

Audience: This is a necessary topic for Coders; Administrators; Compliance; Clinical Management

Participants are asked to have an ICD-10-CM Manual available during the coding series for reference.

Session 1: March 12, 2020 — CODING & DOCUMENTATION—SPRINT INTO ACTION Review of any coding issues since the implementation of PDGM and a review of what documentation needs to be present to support coding selection. Objectives: 1) Identify hot topics in coding under PDGM. 2) Determine what documentation needs to be present for up to 25 diagnoses. Establishing medical necessity. 3) Are you properly documenting when a questionable diagnosis is provided and later for billing? Discussion of current best practice process.

Session 2: March 19, 2020 — CODING—IT'S COMPLICATED Coding patient complications can be a time consuming process to “look-up” the correct code. Learn the tips for quickly coding complications. Objectives: 1) Determine coding terminology to quickly access complications. 2) Review clinical groupings and comorbidity adjustments for these areas. 3) Test Your Knowledge Cases to review your coding skills.

Session 3: March 26, 2020 — UNDERSTANDING THE COMPLEXITIES OF CARDIOVASCULAR & RESPIRATORY CODING (*75 Minutes) Many patients have multiple cardiac and respiratory diagnoses. Objectives: 1) Understand the proper code assignment as primary or comorbidity for cardiovascular diagnosis including CHF, CAD A-fib, Sequelae of CVA. Includes Updates and changes. 2) Understand updated to respiratory coding as primary or comorbidity including COPD, asthma, emphysema. Includes updates and changes. 3) Review clinical groupings and comorbidity adjustments for these areas. 4) Test Your Knowledge Cases to review your coding skills.

Registration Form

Live webinar registration fee is for 1 connection. For additional sites, copy this registration form & send in with proper payment amount.

Audio recording link will be sent to all who register.

If paying by credit card please mail or fax your registration form for security reasons
