This workshop will discuss key areas, strategies and processes in assisting an agency with continued success in 2025. This 2 part workshop will have a focus on best episode management and process improvement practices including the referral, intake and scheduling processes, timely documentation, physician and patient communication strategies, all of which are required to more tightly manage care within the 30-day payment period. The data utilized in determining impact of medical review and top denials resulting from medical review will be detailed. Lastly, the workshop will include a session on being successful with Medicare Advantage contracting and implementation.
