# **Emergency Planning Review During COVID-19 & Infection Control Practices During the Pandemic and the CoPs**

MAHC continues to be committed to providing quality educational programs. We are pleased to be able to offer two recorded webinars by Sharon Litwin covering emergency preparedness and infection control during COVID-19.

**Emergency Planning Review During COVID 19**—In 2019 the Emergency Preparedness CoP was updated to include the requirement that agencies need to be able to identify and manage emerging infectious disease (EID) as part of their emergency preparedness plan. COVID-19 has put us to the test. Has your agency's Emergency Preparedness plan been effective during the COVID-19 pandemic? In this session we will take a deep dive into the Emergency Preparedness CoP and walk through what your agency needs to be doing to ensure compliance now and in the future.

**Infection Control Practices During the Pandemic and the CoPs**—Infection Control Practices have been front and center during the COVID-19 pandemic. During this session we will review the CoPs for Infection Prevention and Control as well as examine the CDC guidance for Infection Control and Prevention concerning COVID-19 in Home Health Agencies.
