- (1) Routine home care (RHC) high rate applies to hospice patients whose services occur during the first 60 calendar days of a hospice episode of care. A hospice episode of care is considered to be continuous unless there has been more than 60 days between hospice discharge and readmission.
- (2) RHC low rate applies to hospice patients whose services occur on calendar day 61 or later during a hospice episode of care. A hospice episode of care is considered to be continuous unless there has been more than 60 days between hospice discharge and readmission.
- (3) Service intensity add-on (SIA) is paid on visits performed by registered nurses (RNs) or medical social workers (MSW) for patients during the last seven days of life. SIA is paid in 15-minute increments for up to four hours total per day of combined RN and MSW direct visit time and is in addition to the daily RHC rate. SIA does not apply to days paid at the continuous home care, inpatient respite or general inpatient care rates.

All rate information based on the **Federal Register** dated August 4, 2021, and the Centers for Medicare & Medicaid Services Annual Change in Medicaid Hospice Payment Rates memorandum dated September 22, 2021.
