PPE Product & Pricing Guide – April 2, 2020

(Product Pricing and MOQ as shown are valid for this date only. See APPENDIX-A for additional product information.)

Product Minimum Order Requirements

- Minimum Order Quantity (MOQ) Units represents the required minimum number order of a product as established by the product manufacturer.
- All orders include freight/shipping charges except for overnight shipping & delivery of available domestic (US) products. Contact us for details.

Product Pricing & Payment Terms

- All pricing represents US Dollars (USD).
- 50% payment of the total order Invoice amount is due at the time of product order.
- Payment of the remaining invoice amount is due on the date of confirmed product ship date. KDK will provide confirmation of order shipping date with the customer.

Payment Options: WIRE TRANSACTION ONLY

We ONLY accept payment using wire transactions facilitated by our St. Louis, MO-based partner company, Wade2Be, LLC, who utilizes US banking institutions for payments from product purchasers. KDK Technology, LLC receives order payment from Wade2Be, LLC and pays the product manufacturer directly. Please note that a 4% wire fee using Wire transactions will be charged to the total amount due, per invoice, at time of payment amount. KDK Technology, LLC and Wade2Be, LLC W-9s are available for your review, upon request.

Shipping/Delivery Information

International Orders

- Expected shipping and delivery times are 10-14 days from date of product order placement by KDK. Due to high global demand for PPE products, delivery days may exceed 14 days. KDK will provide order shipping updates to customer.
- Unless otherwise requested by the customer at the time of order, product orders will be shipped to the KDK warehouse and fulfillment center, located at 1188-A Innerbelt Center Drive Overland, MO 63114. Orders will be fulfilled and direct-shipped to the customer.
- Large orders can be direct-shipped to the customer. Please call or email with questions.

Domestic Orders

- Expected delivery days for domestic orders are 1-2 days from the date of order placement by KDK. Overnight shipping requests will require an additional shipping fee. Please contact us for information.

Order Pooling Program

KDK Technology has launched its Order Pooling Program (OPP) designed to afford multiple product purchasing entities to “pool” their orders in an effort to not only obtain available COVID-19 PPE products, but obtain them at the lower MOQ (Minimum Order Requirement) item price. Please contact us via email with items from our guide that you wish to purchase and we will add you to the product order pool. Once we obtain order requests that meet the MOQ requirements, we will contact you immediately.

In addition, we will have an availability of certain high-demand PPE products available (EG: N-95 masks), but these products are only available on a first-come/first-serve basis. We will do our best to communicate to you as to the availability of these items. Also note that these items typically command up to a 50% markup in purchase price from what we provide in our Guide. We do not establish the purchase price of these items. We will not communicate to you, information on the availability of certain high-demand items that surpass a 50% markup from those items listed in our Guide.

Questions?

Please contact Andy Limbaugh via email at: andylimbaugh@gmail.com. Should you wish to communicate by phone, please call: (314) 601-4940. Availability by phone will be limited to due high demand for orders. If a phone call is necessary, please leave a voice mail and we will reply to you just as quickly as possible.

YOUR SAFEGUARD AGAINST CORONAVIRUS

SURFACE PROTECTANT

The traditional mode of action to combat transmission of harmful microorganisms on surfaces is to attack the germs with varying degrees of poisonous chemicals. These poisons are composed of alcohols, bleaches and acids, and are designed to target and destroy a microbe's outer membrane, resulting in a "chemical kill". Antimicrobial biocides are toxic compounds that are all harmful to humans, plants and animals.

When a surface is coated with **Strategia Surface Protectant**, millions of "invisible", nanoscopic crystalline structures begin forming and bonding (with the surface), effectively forming a new surface. Resulting in a "mechanical kill", that will kill the cells of the bio threat trying to attach to the object.

Can be sprayed on any cloth or mask to cover your nose and mouth from CORONAVIRUS!

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

- 1 Kills 99.999% of bacteria on contact, including E.Coli, Enterococcus hirae, P. Aeruginosa, Staphylococcus aureus, and Coronavirus
- 2 Dries on any surface forming a covalent bond
- 3 Non-toxic, gentle on surfaces & safe for use around children & pets

- This newly mechanically modified surface is one that prevents adhesion, disrupts microbial communication and prohibits colonization, reproduction and proliferation.
- Microbes that are unfortunate enough to come in contact with Strategia Surface Protectant modified surface, exhaust themselves, wither and die.
- Unlike traditional disinfectants, Strategia Surface Protectant stays in place long after you apply it.

PROTECTS LIKE NO OTHER

*Undisturbed coating will remain in place for up to six months. Reapply Strategia Surface Protectant sooner if surface has been abraded or exposed to heavy smoke or debris

Instant killing action - lasting prevention

YOUR SAFEGUARD AGAINST CORONAVIRUS

Hand Sanitizer

Strategia Hand Sanitizer is an anomaly. Fully capable of tackling the toughest germs, yet always environmentally friendly, free of harsh fumes, gentle on skin and safe for use around people & pets. Never sacrifice safety for product performance again.

Strategia Hand Sanitizer kills germs on contact and leaves an invisible, "breathable" barrier that stays working & locked in place for up to 8 hours*. Experience heightened protection before & after exposure.

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

Protection through Prevention. Protect yourself from Coronavirus!

- 1 Kills 99.99% of Germs, bacteria, and viruses including Coronavirus. Continued protection against recontamination up to 8 hours*!
- 3 Preferred by healthcare, education and public facilities where frequent skin cleansing is a must.
- 3 Amplifies consumer defense against the threat of surface transmissible infections

- Alcohol-Free, Free of harsh fumes
- Moisture-infused foam
- No cracking, drying or burning
- Does not degrade surfaces
- Parent, Nurse & Teacher Favorite

PROTECTS LIKE NO OTHER

*Skin cells may be shed prior to 8 hours naturally or by abrasion. Reapply as needed.

- Benzalkonium Chloride base d
- Patented manufacturing process
- Enhanced Capabilities
- Always eco-friendly

Instant killing action - lasting prevention

PPE Product & Pricing Guide – April 2, 2020

(Product Pricing and MOQ as shown are valid for this date only. See APPENDIX-A for additional product information.)

APPENDIX-A ADDITIONAL PRODUCT INFORMATION

Product Type: COVID-19 Rapid Test Kit

- Made in Canada
- In Vitro Assay
- Coronavirus (COVID-19) IgG/IgM Antibody Test
- MHRA Reg #: IVD0000772
- DOA Rapid Test Catalogue #: B521C
- Applicable Standard: ISO 13458:20016

**CERTIFICATE
OF REGISTRATION**

This is to certify that the management system of:

Biocan Diagnostics Inc

Main Site: 55a & 53b Fawcett Road, Coquitlam, British Columbia,
V3K6V2, Canada
(DUNS # 203720904)

has been registered by Intertek, an MDSAP recognized auditing organization,
as conforming to the requirements of:

ISO 13485:2016

Canada: Medical Devices Regulations – Part 1- SOR 98/282
Brazil: Federal Law n. 6369/76; RDC ANVISA n. 16/2013; RDC ANVISA n. 23/2012; RDC ANVISA
n. 67/2009; RDC ANVISA n. 56/2001

The management system is applicable to:

The design and development, manufacture and distribution of in vitro
diagnostic rapid test kits used in diagnosis, detection of cancer, cardiac
markers, inflammatory & Tumor markers, fecal antigens, drugs of abuse,
fertility testing, pregnancy testing, sexually transmitted, parasitology,
infectious diseases, respiratory, hormone, neonatal, serology, clinical
chemistry, urinalysis; and the manufacture and distribution of in-vitro
diagnostic analyzers including home use, near patient/point of care in
vitro diagnostic devices.

Certificate Number:
0073670-02

Initial Certification Date:
2018-03-22

Certification Effective Date:
2018-07-04

Certification Expiry Date:
2021-03-21
