2. The U.S. Department of Labor (DOL) is working at a rapid pace to answer employer questions and provide needed guidance for the sick leave mandates and other provisions of the recently passed Families First Coronavirus Response Act. To gather comments needed to craft regulations and guidance, the DOL needs employers to provide feedback.
  - a. To do so, [click here](#) and select “Submit New Idea” in the top right corner to create a new account. Then you can either submit a new comment or question and/or VOTE for other comments and questions already submitted. The DOL needs to hear from more employers, not fewer, so the DOL needs to hear from each individual employer.
