### **CMS Publishes FAQs to Ensure Individuals, Issuers and States have Clear Information on Coverage Benefits for COVID-19**

*Information details existing federal rules governing health coverage that apply to diagnosis and treatment of COVID-19*

Today, the Centers for Medicare & Medicaid Services (CMS) is posting Frequently Asked Questions (FAQs) on Essential Health Benefits (EHB) Coverage in response to the 2019 Novel Coronavirus (COVID-19) outbreak. This action is part of the broader, ongoing effort by the White House Coronavirus Task Force to ensure that all Americans – particularly those at high-risk of complications from the COVID-19 virus – have access to the health benefits that can help keep them healthy while helping to contain the spread of this disease.

“Amid a serious outbreak like this one, Americans understandably crave the security and peace of mind that comes from understanding exactly how they will be covered.” said CMS Administrator Seema Verma. “Today’s guidance aims to give it to them. Working closely with states and issuers around the country, the Trump Administration will continue to provide pertinent information to strengthen the nation’s response and keep Americans informed.”

The FAQs released today detail existing federal rules governing health coverage provided through the individual and small group insurance markets that apply to the diagnosis and treatment of COVID-19. The FAQs clarify which COVID-related services, including testing, isolation/quarantine, and vaccination, are generally currently covered as EHBs in these markets. The purpose of the FAQs is to provide guidance to Americans enrolled in individual or small group market health plans, including HealthCare.gov consumers. As questions and issues continue to come to CMS, they will be addressed and added to these FAQs.

Earlier this week, President Trump and Vice President Pence held a meeting with leading insurance companies and their industry associations in which many health insurance issuers

announced they will be treating COVID-19 diagnostic tests as covered benefits and will be waiving cost-sharing that would otherwise apply to the tests. States are the primary regulators of health coverage and are continuing to work with issuers to ensure coverage of COVID-19 related services. Patients should contact their insurer to determine specific benefits and coverage policies, as these details may vary by state and by plan.

The COVID-19 FAQs for EHB can be found here: <https://www.cms.gov/CCIIO/Resources/Fact-Sheets-and-FAQs/Downloads/EHB-Benchmark-Coverage-of-COVID-19.pdf>

These FAQs, and earlier CMS actions in response to the COVID-19 virus, are part of the ongoing White House Task Force efforts. To keep up with the important work the Task Force is doing in response to COVID-19 click here [www.coronavirus.gov](http://www.coronavirus.gov). On March 9, 2020: CMS issued a fact sheet with additional guidance for healthcare providers and patients about the telehealth benefits in the agency's Medicare program. Expanded use of virtual care, such as virtual check-ins, are important tools for keeping beneficiaries healthy, while helping to contain the community spread of the COVID-19 virus.

<https://www.cms.gov/newsroom/press-releases/telehealth-benefits-medicare-are-lifeline-patients-during-coronavirus-outbreak>

On March 9, 2020: CMS published guidance to hospitals with emergency departments (EDs) on patient screening, treatment and transfer requirements to prevent the spread of infectious disease and illness, including COVID-19. Medicare-participating hospitals are to follow both CDC guidance for infection control and Emergency Medical Treatment and Labor Act (EMTALA) requirements.
